HybridSNN: 通过增强自适应尖峰神经网络结合生物机器的优势

文章标题: HybridSNN: Combining Bio-Machine Strengths by Boosting Adaptive Spiking Neural Networks

期刊名称: TNNLS

所有作者: Jiangrong Shen, Yu Zhao, Jian K. Liu, Yueming Wang

关键词: Adaptive structures, boosting, HybridSNN, spiking neural networks (SNNs).

  r = requests.post(url, params=payload, headers=headers)
  result = r.json()
  return result['trans_result'][0]['dst']
```

Homework

Take the abstracts of the first 20 papers in the given URL, translate them into Chinese, and write them into the file named 'my_abstract.txt'.

URL = https://openaccess.thecvf.com/ICCV2021?day=2021-10-12
